# KINGSLEY IBE

## SOFTWARE DEVELOPER
Ibekingsley66@gmail.com | GitHub | LinkedIn | Portfolio

## SUMMARY

I help organizations build better online experiences. I create successful software applications that are fast, easy to use, and built with best practices. With modern web technologies, I produce responsive websites and web apps that provide users with the best and most appropriate experience suited to their device and browser.

## SKILLS

**Client-side**: JavaScript, Typescript, React, Redux, jQuery, HTML5, CSS3, SASS, Tailwind, ES6
**Server-side**: Ruby, Rails, MySQL, Nodejs, MongoDb, Express.
**Tools & Methods**: Git, GitHub, Jest, Netlify, Responsive Development, TDD, SEO, Chrome Dev Tools, Webpack, CI/CD,
**Professional**: Advanced Technical Writing, Documentation, Remote Pair-Programming, Leadership, Mentoring, and
   Project Management.
**Hobbies:** Photography, Movies, Gaming

## EXPERIENCE

PROJECTS
Zuri Chat (Group Project) — A Workspace Web App. Users can host meetings, chat and share files.
- Built with: React and NodeJs

Leads Tracker — Google Chrome Extension is used to save URLs, users will be able to save their current tab URLs and don't have to border about remembering them.
- Built with: JavaScript, HTML, CSS.

AFRIKBRAND LIMITED                                                                  Remote
 **Software Developer/Team Lead - *FULL-TIME***                    Feb 2022 –Present
- Supervised and lead a team of 5 crew members in the construction of a robust updated version of the company's software applications, which resulted in a better user experience and a 33% revenue boost in 4 months.
- Utilized strategic engineering procedures to maintain and improve the company's point of sales system feature that was built through WordPress and React.
- Achieved 15% more efficiency by testing software for defects and operating speed, resolving bugs, and documenting procedures.

MICROVERSE                                                                          Remote
**Mentor - *VOLUNTARY***                                            Oct 2021 – May, 2022
- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

DRELUGS LIMITED                                                      Surulere, Lagos, Nigeria
**IT Technical Assistant - *FULL-TIME***                            June 2020 –Oct 2021
- Demonstrated expertise in translating the client's specific needs into easy-to-understand solutions during sales presentations, leading to the successful closing of 6 major contracts generating over 10 million Naira in business revenue.
- Set up digital records/database for all office processes which helped reduced the review time and increase efficiency by 13%.
- Enhanced application features to effectively fix bugs and optimize overall performance, reliability, and efficiency.

GRICD INTEGRATED SERVICES                                            Ikeja, Lagos, Nigeria
**Software Developer - *INTERNSHIP***                               May 2019 –March 2020
- Involved in SDLC processes like requirement analysis, designing, coding, testing, releasing and providing maintenance, and documentation at each stage.

- Proficiently troubleshot simple and complex IoT technological issues for different assigned projects, achieving over 95% customer satisfaction rate.
- Utilized agile software development practices, data and testing standards, code reviews, source code management, continuous delivery, and software architecture.

## EDUCATION

**MICROVERSE**                                                                     Oct 2021 – May 2022
**Remote Full Stack Web Development Program, Full Time**
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard Git flow, and daily standups to communicate and collaborate with international remote developers.

**IMO STATE POLYTECHNIC**
**HND, Chemical Engineering**                                                       Aug 2015 – Oct, 2017
- Learning how to design, manufacture, and operate plants and machinery for carrying out large-scale industrial chemical, biological or related processes.
- Developing new or adapted substances for a wide range of products.
